FADIEL ITALIANA

Who is it for?

We provide a selection of steering wheel spinner knobs to suit a range of users' needs. For some people it will be used on its own and for others it will form part of their hand control kit. All knobs are high quality and designed to be functional and easy to use. Quick release coupling for fast removal, the clamping brackets are small and unobtrusive, avoiding damage to the steering wheel. The fixing clamp is the smallest and cleanest looking on the market.

Models

Standard Spinner Knob
(Standard rubber and leather options)

Prosthesis Spinner

Conical Spinner

Two Point Spinner

Three Point Spinner

Key benefits:

- Easy to install (only needing 22mm socket/ratchet)
- Quick release coupling
- Small clamping brackets
- Unobtrusive, avoiding damage to the steering wheel
- Standard Spinner options - Black rubber or leather option with coloured stitching (red, blue, black, white, yellow) to sync with car interiors.
